

Alexa Karabin: Artist Statement

I am an artist who works with watercolor, makes paint, and does a variety of other processes in my studio. I received my MFA from the School of the Art Institute of Chicago in 2011. Since then, I have been making art and educating in Kalamazoo, Michigan. I live on a 10 acre, former Christmas Tree farm, where I scavenge for materials and inspiration to utilize in my practice. My favorite materials are watercolors made out of my grandmother's jewelry, 24k gold leaf, glass, and other found materials.
